Upright Menorah Project Instructions:

- 1) Please note that the opening in the base (part 1) is tight on purpose so that the tension will hold the base and the upright menorah part (part 2) together even without / or minimal use of glue.
- 2) Press down on the upright part (part 2) of Menorah into opening in the base (part 1) (see image B), using both hands.
- 3) Decorate wooden MDF parts with markers, stickers, paint, gem stones, etc...
- 4) Glue metal candle bases onto Menorah with white glue (Best Elmer's "Glue-All"). Glueing the Shamash (Center) first will help to space out the candle cups!

Please Note:

Contains small parts – Not for children under 3 years of age.
This item is an arts & craft decoration project.
It contains wooden parts that are flammable.
Lighting Menorah is on your own responsibility.
